GitHub: [wilgru](#)

Friendly and aspiring full-stack web developer motivated by a semantic and UX-conscious approach to web development and responsive web design, with interests in audio programming and image processing. Comes from a background in fast-paced optical retail, developing skills in communication, teamwork and attention to detail. Currently studying a certificate in web development through the University of Sydney's Coding Bootcamp, developing skills to build websites using HTML, JavaScript, CSS and also React.js, Node.js, Bootstrap and MERN stack.

Looking for opportunities to utilise skills developed from prior experiences and current studies to build well designed and high quality web applications but also to leverage interests in problem solving, collaboration and innovation.

TECHNICAL SKILLS

JavaScript ES6+, CSS3, HTML5, Python, C/C++, SQL, NoSQL, GitHub, MongoDB, MySQL, Express.js, Node.js, React, jQuery, Bootstrap
